I'm going to keep this short and simple. This is the best DLC thus far, by a mile. If/when it's on sale, it ought to be the first thing you get. I cannot recommend it enough, you won't want to drive anywhere else.. I'm going to keep this short and simple. This is the best DLC thus far, by a mile. If/when it's on sale, it ought to be the first thing you get. I cannot recommend it enough, you won't want to drive anywhere else.. Buy this, especially if you already have the Scandinavian DLC, it brings Southern Finland into the game. The sightseeing is great, but the speed limits are unpredictable (got 15 speed limit offense fines on the first tour across this map). That's life, but you get a lot of things that pays seeing.. Constanct desyncs so if you want to play the game do not get this DLC. This DLC is amazing, This DLC takes you through eastern Europe and a bit of Finland, very detailed, good looking area's, some areas are very different to the rest of Europe which is a good sigh of relief for me. All in all VERY good DLC.. You did the great job with this upgrade! Thank you! Waiting for Moscow and Belarus country. This will finish traffic circle of goods.
